

August 2026

Notification of Price Revision

Dear Valued Customers,

Thank you very much for your continued support and partnership.

Global supply instability, including shortages of tungsten has led to a significant increase in overall material and manufacturing costs. Although we have made every effort to absorb these rising costs through operational efficiencies and cost-reduction initiatives, the impact has now reached a level that makes it difficult for us to maintain current pricing. Therefore, we will be implementing a price increase for certain products within our lineup.

1. Effective date: October 1, 2026

2. Product: Holder, Blades, etc.

For information regarding the new prices, please contact inquiry@sonotec.com

We will continue to make every effort to ensure product quality and service excellence, and we sincerely appreciate your continued support.

Sincerely,

Sonotec Co., Ltd.
